Experience

2013-today — **System Developer**, *AdLibris*, Stockholm.
Core system developer (.NET, VB6, SQL Server).

2012 — **Developer/Scrum master**, *Uppsala University*, Uppsala.
Participated in a project course cooperating with Ericsson Research. The aim of the project was to build an open-source Android application prototype that implements Information Centric Networking[1] functionalities, using NetInf[2] specifications. The final product was an Android application that improves the user's browsing experience within a train environment.

2011 — **Teaching assistant**, *Uppsala University*, Uppsala.
Assistance to students during labs in the course "Imperative and Object-oriented Programming Methodology". Languages: C, Java and Python. Improved my teaching and communication skills.

2008–2010 — **Teaching assistant**, *Stockholm University*, Kista.
Lecturing, tutoring and administrative work, mainly on programming courses. Languages: Java, Python, Ruby, Smalltalk. Improved my teaching and communication skills.

Master thesis

Title — *Live programming for mobile application development*

Supervisor — Mikael Kindborg, MoSync

Description — Investigating the feasibility of using Live Programming for developing mobile applications by building a prototype of a Live Programming web environment[3].

Education

2011-2013 — **Master Program in Computer Science**, *Department of Information Technology, Uppsala University*, Uppsala.
Key courses I have taken are *Project Computer Science, Programming of Parallel Computers, Functional Programming, Programming Theory*.

2011 — **Mathematics I, 30 credits**, *Stockholm University*, Stockholm.

2007-2010 — **Bachelor of Science in Computer and Systems Sciences**, *Stockholm University*, Kista.
Key courses I have taken are *Advanced Issues in Object Orientation, Programming in C and C++, Dynamic Programming Languages, Internet Programming*.

2006–2007	**Swedish As a Foreign Language, Intermediate and Advanced Level**, *Stockholm University*, Stockholm.

Programming languages

Proficient	Java, Ruby, JavaScript
Good	C, Objective-C, Python
Basic	C++, Erlang, Smalltalk

Other Skills

Tools	Eclipse, Xcode, Emacs, Git, LaTeX, *NIX, Subversion
Web	HTML, CSS, Ruby on Rails, NodeJS

Languages

Italian	**Mother tongue**
English	**Fluent**
Swedish	**Fluent**
